Journal of Forensic Sciences

Index to Volume 21

1976

Number	Month of Issue	Pages
1	January	1-236
2	April	237-464
3	July	465-700
4	October	701-992

A

Addressing systems
- Mechanical addressing methods (Kessell), April, 422

Adelson, Lester: *see* Hirsch, C. S. and Adelson, Lester

Age determination
- Estimation of age from individual adult teeth (Burns and Maples), April, 343

Ainsworth, C. A. III: *see* Noe, E. R., Lathrop, G. D., Ainsworth, C. A. III, and Merritt, J. H.

Air guns
- Death from an air gun (Barnes and Helson), July, 653

Alcohol
- Alcohol and criminal responsibility (Perr), Oct., 932
- Breath-alcohol analysis: uses, methods, and some forensic problems—review and opinion (Mason and Dubowski), Jan., 9
- Concentrations of ethanol in two segments of the vascular system (Sedman, Wilkinson, and Wagner), April, 315
- Drug detection in cases of "driving under the influence" (Garriott and Latman), April, 398

Amphetamine
- Contaminants in illicit amphetamine preparations (Lomonte, Lowry, and Stone), July, 575
- Detection of amphetamine and methamphetamine-type materials in pharmaceutical and biological fluids by fluorometric labeling (Hopen, Briner, Sadler, and Smith), Oct., 842

Anaphylaxis
- Two anaphylactic deaths after chemonucleolysis (DiMaio), Jan., 187

Anderson, D. L., Thompson, G. W., and Popovich, F.: Age of attainment of mineralization stages of the permanent dentition, Jan., 191

Anesthetics
- Fatal consequences of local anesthesia: report of five cases and a review of the literature (Christie), July, 671

Antigen systems
- Genetic markers in human semen: a review (Blake and Sensabaugh), Oct., 784
- Low ionic strength, hemagglutinating, AutoAnalyzer® for rhesus typing of dried bloodstains (Brewer, Cropp, and Sharman), Oct., 811
- Precipitin-inhibition test on denatured bloodstains for the determination of human origin (Lee and De Forest), Oct., 804

Archaeology
- Forensic archaeology (Morse, Crusoe, and Smith), April, 323

Arnold, K. P.: *see* Kelley, J. A. and Arnold, K. P.

Asphyxia
- Accidental asphyxial deaths involving infants and young children (Sturner, Spruill, Smith, and Lene), July, 483
- Sudden death while attempting to conceal illegal drugs: laryngeal obstruction by a package of heroin (Simson), April, 378

Automobiles
- Evaluation of automobile paint flakes as evidence (Gothard), July, 636
- Programmed energy dispersive X-ray analysis of top coats of automotive paint (Reeve and Keener), Oct., 883

B

Bahr, G. F.: Review of *Bedeutung und gerichtsmedizinische Anwendung der DNS-Fluorochromierung von Chromosomen und Zellkernen* by Schwinger, Jan., 231

Ballistics
- Death from an air gun (Barnes and Helson), July, 653
- Detection of gunshot residue by use of the scanning electron microscope (Nesbitt, Wessel, and Jones), July, 595
- Latent fingerprints on cartridges and expended cartridge casings (Given), July, 587
- Short-range ammunition—a possible anti-

hijacking device (Smialek and Spitz), Oct., 856
Studies of the spatial distribution of firearms discharge residues (Seamster, Mead, Gislason, Jackson, Ruddy, and Pate), Oct., 868
Time of firing of shot shells (Sinha), Jan., 171
Wound ballistics: an analysis of a bullet in gel (Jauhari and Bandyopadhyay), July, 616
Bandyopadhyay, A.: *see* Jauhari, M. and Bandyopadhyay, A.
Barklow, J. P., Jr.: *see* Lowry, W. T. and Barklow, J. P., Jr.
Barnes, F. C. and Helson, R. A.: Death from an air gun, July, 653
Bastos, M. L. and Galante, L.: Toxicological findings in victims of traumatic deaths, Jan., 176
Bath, R. J.: *see* Siek, T. J., Osiewicz, R. J., and Bath, R. J.
Bennett, I. F.: *see* Finkle, B. S., McCloskey, K. L., Kiplinger, G. F., and Bennett, I. F.
Bidanset, J. R.: *see* Manning, Thomas, Bidanset, J. H., Cohen, Stephen, and Lukash, Leslie
Bite marks
Unusual three-dimensional bite mark evidence in a homicide case (Vale, Sognnaes, Felando, and Noguchi), July, 642
Blair, A. R.: *see* Lile, J. E. and Blair, A. R.
Blake, E. T. and Sensabaugh, G. F.: Genetic markers in human semen: a review, Oct., 784
Blood
Concentrations of ethanol in two segments of the vascular system (Sedman, Wilkinson, and Wagner), April, 315
Drug detection in cases of "driving under the influence" (Garriott and Latman), April, 398
Evaluation of tetramethylbenzidine as a presumptive test for blood (Garner, Cano, Peimer, and Yeshion), Oct., 816
Low ionic strength, hemagglutinating, AutoAnalyzer® for rhesus typing of dried bloodstains (Brewer, Cropp, and Sharman), Oct., 811
Methods available for solving medicolegal problems of disputed parentage (Wiener and Socha), Jan., 42
Precipitin-inhibition test on denatured bloodstains for the determination of human origin (Lee and De Forest), Oct., 804
Scanning electron microscope study of dried blood (Dixon, Samudra, Stewart, and Johari), Oct., 797
Simultaneous electrophoresis of peptidase A, phosphoglucomutase, and adenylate kinase (Neilson, Shaler, Stuver, Mortimer, and Hagins), July, 510
Some new approaches to the individualization of fresh and dried bloodstains (Grunbaum), July, 488
Studies by crossed electroimmunodiffusion on the individuality and sexual origin of bloodstains (Sweet and Elvins), July, 498
Book reviews
Armed Robbery: Offenders and Their Victims by MacDonald (Sadoff), Oct., 968
Bedeutung und gerichtsmedizinische Anwendung der DNS-Fluorochromierung von Chromosomen und Zellkernen by Schwinger (Bahr), Jan., 231
Dental Evidence: A Handbook for Policy by Gladfelter (Levine), Oct., 963
Forensic Biology for the Law Enforcement Officer by Wilber (Howard), July, 694
Forensic Geology by Murray and Tedrow (Thornton), Jan., 229
Forensic Medicine by Simpson (Froede), Jan., 228
Forensic Psychiatry—A Practical Guide for Lawyers and Psychiatrists by Sadoff (Drucker), Oct., 965
Forensic Psychology: A Guide for Lawyers and the Mental Health Professions by Gordon (White), Oct., 967
I Trapianti e la Sperimentazione Umana (*Transplantation and Human Experimentation*) by Mantorani (Pirani), July, 692
Legal Admissability of the Polygraph by Ansley (McInerney), July, 690
Methodology for Analytical Toxicology by Sunshine (Standefer), July, 691
Micro-Chemical Analysis of Nervous Tissue by Osborn (Lowry), Jan., 227
Readings on Law and Psychiatry by Allen (Tuchler), July, 693
Scientists in the Legal System by Thomas (Schroeder), April, 451
The Year Book of Pathology and Clinical Pathology—1975 by Carone (Peterson), July, 695
Bosen, S. F. and Scheuing, D. R.: Rapid microtechnique for the detection of trace metals from gunshot residues, Jan., 163
Bradford, L. W.: Problems of ethics and behavior in the forensic sciences, Oct., 763
Breath-alcohol testing devices
Breath-alcohol analysis: uses, methods, and some forensic problems—review and opinion (Mason and Dubowski), Jan., 9
Brewer, C. A., Cropp, P. L., and Sharman, L. E.: Low ionic strength, hemagglutinating, AutoAnalyzer® for rhesus typing of dried bloodstains, Oct., 811
Briner, R. C.: *see* Hopen, T. J., Briner, R. C., Sadler, H. G., and Smith, R. L.
Brown, R. H.: Battered child syndrome, Jan., 65
Brunelle, R. L.: *see* Crown, D. A., Brunelle, R. L., and Cantu, A. A.
Burnham, J. T., Preston-Burnham, Judith, and Fontan, C. R.: State of the art of bone identification by chemical and microscopic methods, April, 340
Burns, K. R. and Maples, W. R.: Estimation of age from individual adult teeth, April, 343
Byrd, G. J. and Stults, Thomas: Expert witness: a dilemma, Oct., 944

C

Cadmium
Correlation of lead and cadmium in human urine (Lewis and Forney), Jan., 150
Cannabis
Combined effect of methaqualone and two cannabinoids (Stone, McCoy, and Forney), Jan., 108
Detection of urinary cannabis metabolites: a preliminary investigation (Kelley and Arnold), April, 252
Forensic taxonomic debate on cannabis: semantic hokum (Small), April, 239
Cano, K. M.: *see* Garner, D. D., Cano, K. M., Peimer, R. S., and Yeshion, T. E.
Cantu, A. A.: *see* Crown, D. A., Brunelle, R. L., and Cantu, A. A.
Casey, M. A. and Purtell, D. J.: IBM Correcting Selectric typewriter: an analysis of the use of the correctable film ribbon in altering typewritten documents, Jan., 208
Castellanos, M.: *see* Villanueva, Pr. E., Girela, F., and Castellanos, M.
Chemical analysis
Collection and determination of ethylene glycol dinitrate, nitroglycerine, and trinitrotoluene explosive vapors (Chrostowski, Holmes, and Rehn), July, 611
Comparative postmortem chemistries of vitreous humor before and after embalming (Coe), July, 583
Correlation of lead and cadmium in human urine (Lewis and Forney), Jan., 150
Detection of amphetamine and methamphetamine-type materials in pharmaceutical and biological fluids by fluorometric labeling (Hopen, Briner, Sadler, and Smith), Oct., 842
Detection of gunshot residue by use of the scanning electron microscope (Nesbitt, Wessel, and Jones), July, 595
Determination of fluoride by specific ion electrode and report of a fatal case of fluoride poisoning (Speaker), Jan., 121
Evaluation of automobile paint flakes as evidence (Gothard), July, 636
Evaluation of tetramethylbenzidine as a presumptive test for blood (Garner, Cano, Peimer, and Yeshion), Oct., 816
Extraction procedures for some common drugs in clinical and forensic toxicology (Hackett, Dusci, and McDonald), April, 263
Low ionic strength, hemagglutinating, Auto-Analyzer® for rhesus typing of dried bloodstains (Brewer, Cropp, and Sharman), Oct., 811
Mass spectrometry as an aid in the detection and identification of piperidyl benzilates and related glycolates (Petersen, Vouros, Parker, and Karger), April, 279
Parameters of ballpen ink examinations (Crown, Brunelle, and Cantu), Oct., 917
Precipitin-inhibition test on denatured bloodstains for the determination of human origin (Lee and De Forest), Oct., 804
Preparing samples for the recording of infrared spectra from synthetic fibers (Grieve and Kearns), April, 307
Probabilities and human pubic hair comparisons (Gaudette), July, 514
Scanning electron microscope study of dried blood (Dixon, Samudra, Stewart, and Johari), Oct., 797
Some new approaches to the individualization of fresh and dried bloodstains (Grunbaum), July, 488
Spatial distribution of copper in individual human hairs (Maes and Pate), Jan., 127
State of the art of bone identification by chemical and microscopic methods (Burnham, Preston-Burnham, and Fontan), April, 340
Studies by crossed electroimmunodiffusion on the individuality and sexual origin of bloodstains (Sweet and Elvins), July, 498
Thyrotoxicosis: postmortem diagnosis in an unexpected death (Simson), Oct., 831
Chemonucleolysis
Two anaphylactic deaths after chemonucleolysis (DiMaio), Jan., 187
Child abuse
Battered child syndrome (Brown), Jan., 65
Child abuse laws: past, present, and future (Wilcox), Jan., 71
Several unusual cases of child abuse (Palmer and Weston), Oct., 851
Children
Accidental asphyxial deaths involving infants and young children (Sturner, Spruill, Smith, and Lene), July, 483
Forensic anthropology and crimes involving children (Kerley), April, 333
Christie, J. L.: Fatal consequences of local anesthesia: report of five cases and a review of the literature, July, 671
Chrostowski, J. E., Holmes, R. N., and Rehn, B. W.: Collection and determination of ethylene glycol dinitrate, nitroglycerine, and trinitrotoluene explosive vapors, July, 611
Codeine
Antemortem conversion of codeine to morphine in man (Nakamura, Griesemer, and Noguchi), July, 518
Coe, J. I.: Comparative postmortem chemistries of vitreous humor before and after embalming, July, 583
Cohen, Stephen: *see* Manning, Thomas, Bidanset, J. H., Cohen, Stephen, and Lukash, Leslie
Coitus
Sex-chromatin bodies in penile washings as an indicator of recent coitus (Given), April, 381
Color codes
Application of a standard color coding system to paint in forensic science (Fouweather, May, and Porter), July, 629
Computers
Computer and the law: coordinate analysis of

skull shape and possible methods of postmortem identification (Walker), April, 357
Controlled substances
Excepted substances: a comparison of federal and state laws (Lowry and Barklow), April, 416
Cravey, R. H.
see Reed, Dwight and Cravey, R. H.
see Richards, R. G., Reed, Dwight, and Cravey, R. H.
Criminalistics
IBM Correcting Selectric typewriter: an analysis of the use of the correctable film ribbon in altering typewritten documents (Casey and Purtell), Jan., 208
Classification and identification of photocopiers: a progress report (Lile and Blair), Oct., 923
Forensic applications of diamond cell-infrared spectroscopy. I: identification of blasting cap leg wire manufacturers (Washington and Midkiff), Oct., 862
Individualizing oil delivery imprints (Hilton), Jan., 213
Rapid microtechnique for the detection of trace metals from gunshot residues (Bosen and Scheuing), Jan., 163
Some aspects of normal behavior: their use in understanding problems encountered by document examiners (McCarthy), Jan., 201
Cropp, P. L.: *see* Brewer, C. A., Cropp, P. L., and Sharman, L. E.
Crown, D. A., Brunelle, R. L., and Cantu, A. A.: Parameters of ballpen ink examinations, Oct., 917
Crusoe, Donald: *see* Morse, Dan, Crusoe, Donald, and Smith, H. G.
Curvey, C. E. and Eaton, C. E.: Identification of IBM keypunch machines by their printed products, Oct., 949

D

Daenens, P. and van Boven, M.: Identification of quinazolinones on the illicit market, July, 552
Davis, Joseph: *see* Wright, R. K. and Davis, Joseph
Death
Accidental asphyxial deaths involving infants and young children (Sturner, Spruill, Smith, and Lene), July, 483
Death from an air gun (Barnes and Helson), July, 653
Deaths from intravenously administered narcotics: a study of 114 cases (Richards, Reed, and Cravey), July, 467
Death on the railway (Murphy), Jan., 218
Examination of the sudden infant death syndrome infant: investigative and autopsy protocols (Jones and Weston), Oct., 833
Experimental study of powder tattooing of the skin (DiMaio, Petty, and Stone), April, 367
Fatal case involving proparacaine (Reed and Cravey), April, 275
Fatal consequences of local anesthesia: report of five cases and a review of the literature (Christie), July, 671
Forensic anthropology and crimes involving children (Kerley), April, 333
Heat stroke and fluphenazine therapy: report of a case (Forbes and Gordon), July, 667
Homicidal hanging masquerading as sexual asphyxia (Wright and Davis), April, 387
Several unusual cases of child abuse (Palmer and Weston), Oct., 851
Sudden death while attempting to conceal illegal drugs: laryngeal obstruction by a package of heroin (Simson), April, 378
Suicidal gunshot would of the back (Hirsch and Adelson), July, 659
Thyrotoxicosis: postmortem diagnosis in an unexpected death (Simson), Oct., 831
Toxicological findings in victims of traumatic deaths (Bastos and Galante), Jan., 176
Two anaphylactic deaths after chemonucleolysis (DiMaio), Jan., 187
De Forest, P. R.: *see* Lee, H. C. and De Forest, P. R.
Dentition
Age of attainment of mineralization stages of the permanent dentition (Anderson, Thompson, and Popovich), Jan., 191
Estimation of age from individual adult teeth (Burns and Maples), April, 343
Differential thermal analysis
Application of differential thermal analysis and thermogravimetric analysis to dating bone remains (Villanueva, Girela, and Castellanos), Oct., 822
DiMaio, V. J. M.
Two anaphylactic deaths after chemonucleolysis, Jan., 187
and Petty, C. S. and Stone, I. C., Jr.: Experimental study of powder tattooing of the skin, April, 367
Dixon, T. R., Samudra, A. V., Stewart, W. D., Jr., and Johari, O.: Scanning electron microscope study of dried blood, Oct., 797
Drucker, Franklin: Review of *Forensic Psychiatry—A Practical Guide for Lawyers and Psychiatrists* by Sadoff, Oct., 964
Drug identification
Determination of methaqualone in urine by metabolite detection via gas chromatography (Permisohn, Hilpert, and Kazyak), Jan., 98
Extraction procedures for some common drugs in clinical and forensic toxicology (Hackett, Dusci, and McDonald), April, 263
Identification of drugs and other toxic compounds from their ultraviolet spectra. Part III: ultraviolet absorption properties of 22 structural groups (Siek, Osiewicz, and Bath), July, 525
Identification of drugs and their derivatives

(Wilkinson, Pavlikowski, and Jensen), July, 564
Identification of quinazolinones on the illicit market (Daenens and van Boven), July, 552
Studies on fluorescamine: Part I—applications of fluorescamine in forensic toxicological analysis (Nowicki), Jan., 154
Drugs—*see* Toxicology and specific headings
Dubowski, K. M.: *see* Mason, M. F. and Dubowski, K. M.
Dusci, L. J.: *see* Hackett, L. P., Dusci, L. J., and McDonald, I. A.

E

Eaton, C. E.: *see* Curvey, C. E. and Eaton, C. E.
Editorial
Course of forensic sciences (Weston), Oct., 704
Electroimmunodiffusion
Studies by crossed electroimmunodiffusion on the individuality and sexual origin of bloodstains (Sweet and Elvins), July, 498
Electrophoresis
Simultaneous electrophoresis of peptidase A, phosphoglucomutase, and adenylate kinase (Neilson, Shaler, Stuver, Mortimer, and Hagins), July, 510
Elvins, J. W.: *see* Sweet, G. H. and Elvins, J. W.
Embalming
Comparative postmortem chemistries of vitreous humor before and after embalming (Coe), July, 583
Energy dispersive X-ray analysis
Elemental analysis by energy dispersive X-ray: a significant factor in the forensic analysis of glass (Reeve, Mathiesen, and Fong), April, 291
Programmed energy dispersive X-ray analysis of top coats of automotive paint (Reeve and Keener), Oct., 883
Scanning electron microscope study of dried blood (Dixon, Samudra, Stewart, and Johari), Oct., 797
Ethanol—*see* Alcohol
Ethics
Ethics and the document examiner under the adversary system (Hilton), Oct., 779
Money and the expert wtiness: an ethical dilemma (Tanay), Oct., 769
Need for and the relationship of the forensic sciences to the civil laws (Sachs), Oct., 759
Old ethics for new sciences—what confronts justice (Schroeder), Oct., 748
Prevention of legal problems in dentistry (Woolridge), Oct., 776
Problems of ethics and behavior in the forensic sciences (Bradford), Oct., 763
Problems of freedom and responsibility in the forensic sciences (Joling), Oct., 743
Evseeff, G. S.: Potential young murderer, April, 441
Experimentation
Overview of the legal aspects of human experimentation and research (Little), April, 427
Explosives
Collection and determination of ethylene glycol dinitrate, nitroglycerine, and trinitrotoluene explosive vapors (Chrostowski, Holmes, and Rehn), July, 611
Forensic applications of diamond cell-infrared spectroscopy. I: identification of blasting cap leg wire manufacturers (Washington and Midkiff), Oct., 862

F

Felando, G. N.: *see* Vale, G. L., Sognnaes, R. F., Felando, G. N., and Noguchi, T. T.
Ferroin compounds
New trace ferrous metal detection reagent (Goldman and Thornton), July, 625
Fingerprints
Latent fingerprints on cartridges and expended cartridge casings (Given), July, 587
Finkle, B. S., McCloskey, K. L., Kiplinger, G. F., and Bennett, I. F.: National assessment of propoxyphene in postmortem medicolegal investigation, 1972–1975, Oct., 706
Firearms
Latent fingerprints on cartridges and expended cartridge casings (Given), July, 587
New trace ferrous metal detection reagent (Goldman and Thornton), July, 625
Short-range ammunition—a possible anti-hijacking device (Smialek and Spitz), Oct., 856
Studies of the spatial distribution of firearms discharge residues (Seamster, Mead, Gislason, Jackson, Ruddy, and Pate), Oct., 868
Time of firing of shot shells (Sinha), Jan., 171
Wound ballistics: an analysis of a bullet in gel (Jauhari and Bandyopadhyay), July, 616
Fluorescamine
Studies on fluorescamine: Part I—applications of fluorescamine in forensic toxicological analysis (Nowicki), Jan., 154
Fluoride
Determination of fluoride by specific ion electrode and report of a fatal case of fluoride poisoning (Speaker), Jan., 121
Fluphenazine
Heat stroke and fluphenazine therapy: report of a case (Forbes and Gordon), July, 667
Fong, Wilkaan: *see* Reeve, Victor, Mathiesen, Jim, and Fong, Wilkaan
Fontan, C. R.: *see* Burnham, J. T., Preston-Burnham, Judith, and Fontan, C. R.
Forbes, N. T. and Gordon, E. L.: Heat stroke and fluphenazine therapy: report of a case, July, 667
Forensic science
Application of a standard color coding system

to paint in forensic science (Fouweather, May, and Porter), July, 629
Course of forensic sciences (Weston), Oct., 704
Ethics and the document examiner under the adversary system (Hilton), Oct., 779
Forensic archaeology (Morse, Crusoe, and Smith), April, 323
Money and the expert witness: an ethical dilemma (Tanay), Oct., 769
National assessment of propoxyphene in postmortem medicolegal investigation, 1972–1975 (Finkle, McCloskey, Kiplinger, and Bennett), Oct., 706
Need for and the relationship of the forensic sciences to the civil laws (Sachs), Oct., 759
Old ethics for new sciences—what confronts justice (Schroeder), Oct., 748
Prevention of legal problems in dentistry (Woolridge), Oct., 776
